EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ann C. Livingston on May 30, 2006.

The application has been amended as follows:

In claim 18: lines 12-13, delete "or materials" and lines 17-18 delete "the materials programming and database".

2. The following is an examiner's statement of reasons for allowance: The present invention is directed to a system for monitoring assets and personnel. Each independent claim identifies the uniquely distinct features "a personnel tracking subsystem having, a geolocation personnel tracking devices carried by personnel, wherein the personnel tracking devices are operable to read RFID tags on tools and monitoring at least one physiological condition status of the personnel" in combination with the manner claimed. The closest prior arts Ghaffari US 6,804,578 and Swartz et al. US 2003/0132298 disclose similarly inventions, however, they fail to teach the distinction limitations above. Therefore, either singularly or in combination, fail to anticipate or render the above underlined limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
